

**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

In re Reissue Application of: John W. Matthews  
Application Serial No.: 10/658,851

Filed: 09/09/2003

Title: Flashlights and Other Battery-Powered Apparatus for  
Holding and Energizing Transducers

Reissue of U.S. Patent No.: 5,629,105

Assignee: SUREFIRE, LLC

Attorney Docket 8338RE

} Examiner: Stephen J. Kalafut

} Group Art Unit: 1745

**STATUS OF CLAIMS AND SUPPORT FOR CLAIM CHANGES**

**(37 C.F.R. §1.173(c))**

1. The status of the claims as a result of the Amendment submitted herewith is:

Claims Pending: Claims 1-85

Claims Cancelled: None

Claims Amended: Claims 39 and 40

Claims Added: Claims 79-85

2. The support in the disclosure for the changes made to the claims and for the claims added is as follows:

Amended claim 39. The amendments correct inadvertent informal errors in original claim 39.

Amended claim 40. The amendatory language is supported by FIGs. 1 and 2 of the drawing, and in particular the two lamps 12 and 13 and the two directed light beams 14 and 15 referred to at various places in the original specification including at column 11 line 54 through column 12 line 27, and at column 16 lines 30-41.

Added claim 79. The subject matter of dependent claim 79 is shown in FIGs. 1 and 2 of the drawing, and in particular the two lamps 12 and 13 and the two directed light beams 14 and 15 referred to at various places in the original specification

including at column 11 line 54 through column 12 line 27, and at column 16 lines 30-41.

Added claim 80. Claim 80 is original claim 40 to which has been added the amendatory language discussed above in connection with amended claim 40.

Added claim 81. The position of the two lamps (12 and 13) in openings in the reflector 36, with the second electric lamp recessed in its reflector opening with the refractive lens 213 exposed in the reflector 36, is shown in FIGs. 1 and 2, elements of which are referred to at various places in the specification including at column 11 line 54 through column 12 line 27, and at column 16 lines 30-41.

Added claim 82. The movable housing and switching arrangement of claim 82 are described in the specification at column 12 lines 28-32.

Added claim 83. Claim 83 is dependent from claim 81 and includes the subject matter set forth in added claim 79, the support for which is set forth above.

Added claim 84. Independent claim 84 is similar to added independent claim 81, except that the last paragraph of claim 84 recites that the refractive lens of the second lamp is "adjacent to said reflector at said second opening", support for which is shown in FIGs. 1 and 2 and further set forth above with respect to claim 81.

Added claim 85. Claim 85 is dependent from added claim 84, further adding the subject matter of added claim 79, support for which is discussed above with respect to added claim 79.

Respectfully submitted,

Date: March 9, 2006
